

SP63903 104 Miller St Pymont NSW 2009
User Agreement - Electric Vehicle Charging Per Kilometre

This User Agreement allows a resident to charge their electric vehicle using the Tesla Wallchargers installed in the visitor car parking spaces. The resident pays for the use of electricity through an annual fee, based on their estimated driving distances per year in kilometres, rather than metered electricity consumption.

USER AGREEMENT Date: _____

WHEREAS The Owners, SP63903 (the "Owners Corporation") propose to grant to the undersigned resident(s) of Lot #____ (the "User") the right to use the Tesla Wallchargers located on common property in the visitor car parking area (the "Charging Equipment") on the terms and conditions set out in this Agreement.

For good and valuable consideration, the User agrees:

1. To pay to the Owners Corporation a user fee of \$0.04 per number of estimated kilometres driven per annum in arrears, within 30 days of each anniversary of the User Agreement Date, or such other amount as may be approved in a by-law or in a rule that has been ratified (the "User Fee");
2. To at all times comply with the by-laws of the Owners Corporation;
3. To use the Charging Equipment in accordance with all applicable laws and regulations;
4. Not to do anything which may cause damage to the Charging Equipment;
5. To indemnify and save harmless the Owners Corporation for any cost, loss, or damage to the Charging Equipment caused by the User;
6. If the User fails to pay the User Fee in accordance with Section 1 above, the Owners Corporation will terminate this Agreement and the User will immediately cease using the Charging Equipment;
7. The User will not permit any person other than the User to use the Charging Equipment; and
8. This Agreement is not assignable by the User.
