

Top 30 Solar Installers for Strata Apartment Buildings 2021

What to look for when choosing a solar installer for your strata apartment building

- 1 Experience installing on a residential strata scheme in your state and city
- 2 Do they offer embedded networks, heat pumps, batteries and electric vehicle charging as well?
- 3 If you want to install a solar sharing system, are they an accredited Allume Energy Solshare installer?
- 4 If you want a \$0 upfront solar install, do they offer a Power Purchase Agreement or energy lease?
- 5 If you want flexible, lightweight solar “skin”, are they a reseller of Sunman or Verditek?
- 6 If you want a solar system over 50kW in size, are they a “commercial” solar installer?
- 7 If you want an energy trading system, do they offer Powerledger or Enosi?

Sydney Solar Group have more references of installing on residential strata buildings than any other companies in this list at time of writing.
