## About Wattblock

Wattblock has assisted over **1,000** strata buildings across Australia to mobilize on energy saving initiatives. We have identified over \$25m of annual energy waste across townhouses to high-rise skyscrapers. Wattblock has helped reduce energy costs by an average of 56% for its customers.

### Can Wattblock deliver discounts?

Wattblock can co-ordinate product supply and licensed electricians at bulk discounts for strata.

## What is Wattblock's mission?

The energy wasted in Australia's strata buildings has a bigger impact on carbon emissions than the cars driving on the roads. Wattblock aims to crowdsource the achievement of Australia's national carbon emission reduction target.

### Where is Wattblock located?

Wattblock is located at River City Labs in Brisbane and MCIC at UNSW in Sydney.
